SAN BENITO.

Population 4,000. On the St. L., B. & M. Ry., in Cameron county, 18 miles northwest of Brownsville, the county seat. Has modern business blocks, 2 banks, 2 cotton gins, canning factory, box factory, ice plant, good hotels and a weekly newspaper, the Light. This is a fast-growing place, located in the irrigated district of the Rio Grande valley, embracing a large acreage of rich black land adapted to growing cotton, corn, citrus fruit, sugar cane, vegetables and forage crops. Live stock raising and dairying do well here. The country is practically undeveloped, but the possibilities of this section cannot be over-estimated. Tel., W. U. Exp., W. F. & Co. Telephone connection. Lucius O'Bryan, postmaster.

SHERMAN.

Population 17,000. The judicial seat of Grayson county is located on the Frisco Lines, the H. & T. C., the M., K. & T., the M., O. & G., the St. L., S. W. and the T. & P. Rys., 68 miles north of Dallas and 13 south of the Red River, which separates Texas from Oklahoma. It is also connected with Denison, 10 miles distant, and with Dallas by interurban electric lines. In matters of public conveniences, the city is the peer of any city of its size. The organization of the municipal government has been effected on broad and enduring lines and covers all of the necessary departments for the protection of life and property, the supplying of public needs in the way of streets and thoroughfares, the prevention and extinguishing of fires, the administration of public justice and all of the features for which city government is organized and operated.

The public school system of Sherman today has reached fine proportions and its 6 buildings may well serve as models of the best school architecture adapted in the most effective manner to the requirements of a modern education, and supplied with all of the apparatus and conveniences that are suggested by a proper consideration to the educational and sanitary needs of its army of knowledge seekers. In addition to its public schools, this is the home of the North Texas Female College, the Austin College, the Carr-Burdett College, St. Joseph's Academy and a business college. There are 15 modern church edifices representing the leading denominations and a Y. M. C. A. building, costing $75,000. Three banks afford ample banking facilities for business men and the press is represented by a daily and 2 weekly newspapers and a monthly publication. Has a sanitarium costing $25,000, 2 wholesale grocery houses, a wholesale hardware house, a wholesale mill supply house, 2 candy factories, overall factory, a cotton seed oil mill, 2 cotton oil refineries, a cotton duck factory, 4 flour mills, etc. The principal crops raised in the surrounding territory are cotton, alfalfa, oats, corn wheat, fruits and vegetables. Over 40,000 bales of cotton, representing an investment of $2,500,000 are compressed for shipment in Sherman during a normal cotton season. Tel., Postal and W. U. Exp., Am., U. S. and W. F. & Co. SNYDER.

Population 2,500. Elevation 2,316 feet; settled in 1881. County seat and principal town of Scurry county, on the A. T. & S. F. and R. S. & P. Rys. Has excellent schools, Baptist, Methodist, Presbyterian, Episcopal, Christian and Non-Progressive Christian churches, 3 strong banks, 2 weekly newspapers, the Signal and Free Press; Water Works and sewer system, electric light and ice plant, cotton seed oil mill and cotton gins. Snyder is well situated in a beautiful prairie country and with her substantial business blocks and fine residences surrounded by shade and ornamental trees, presents a prosperous, progressive city unequaled by few, if any, in the state. Live stock is a very important industry. Cattle are well bred and considerable attention is being given to hogs which appear to be immune from disease. Cotton and other staple crops are successfully grown. The country is rapidly settling with an intelligent class of farmers but there remains a large acreage available for new comers. Tel., W. U. Exp., W. F. & Co. Telephone connection. Mrs. K. Nelson, postmaster.

SWEETWATER.

Population 5,800. On the T. & P., K. C., M. & O and G., C. & S. F. Rys., in Nolan county, of which it is the county seat, 202 miles west of Ft. Worth and 413 northeast of El Paso. It is the location of the Santa Fe machine shops and round house and is an important railroad center. It has a cotton compress, oil mill, 2 large gins, ice factory, electric lights, water works, sewer system, an abundant supply of good water, well paved streets, steam laundry, 4 wholesale houses and first class hotels. It is also quite a health resort, having an altitude of 2,200 feet, an ideal climate and being the location of the celebrated Grogan Mineral Wells and Boone Institute of Scientific Massage, where hundreds of people from all over the country are being successfully treated for all manner of diseases. It has 3 banks, 2 weekly newspapers, the Record and the Reporter; 4 public school buildings, churches of the Methodist, Baptist, Catholic, Christian, Episcopal and Presbyterian denominations. The leading industries of the county are general farming and stock raising. The principal shipments are live stock, cotton, cotton seed products and farm produce. Sweetwater is growing rapidly, having a splendid location for a railroad center and shipping point and being surrounded by a good farming country. As a stock raising country it is second to none. Exp., W. F. & Co. and Am. Tel., W. U. Telephone connection. M. B. Howard, postmaster.

Grogan Wells and Boone Institute of Massage

SWEETWATER, TEXAS

SCIENTIFIC MASSAGE TREATMENTS embracing all the movements of Osteopathy, Chiropractic, Mechano-Therapy and other forms of Drugless Healing. (This treatment is not to be confused with those in the state claiming to be Masseurs, but who in reality are Magnetic Healers and Hypnotists). Prof. A. W. Canfil, Owner and Director of this Institution, originally chief instructor at the Boone Institute of Massage, Plainview, Texas, is given up to be the best authority in the South on Scientific Massage.

If you want to get well, come to him. It will pay YOU to write for particulars at once. Address,

MORRISON S E, General Store.
Natili Lumber Co

TAYLOR.

With an urban population of about 7,000 and a rural population of about 10,000, occupies a spot on the earth which places her far from all competition. North to Dallas is 174 miles, west to San Antonio is 116, east to Palestine 144 and south to Houston 165. Taylor is located on a rolling prairie, the soil of which is a black waxey which produces year in and year out without fertilizer of any sort. Some fields near Taylor have been in cultivation for over eighty years and are now producing better crops than they did in the beginning. None of these fields have ever received a pound of fertilizer. The principal crop is cotton, the county averaging about 140,000 bales per annum. Other crops raised with profit are oats, wheat, corn, sorghum and garden growths. Lands within 15 miles of Taylor are held from $100 to $200 an acre.

Taylor is located in Williamson county at the junction of the I. & G. N. and the M., K. & T. Railways. The I. & G. N. also has a round house and car shops located here.

Taylor has the best graded public schools in Texas—all school buildings being of brick and modern in every respect. The Catholics have a good co-educational institution here which is well patronized.

Among the leading industries are two cotton oil mills, 2 ice factories, mattress factory, broom factory, 2 laundries, marble works, 7 cotton gins, light and power plant, water works plant, ice cream factory, creamery, machine shops, 2 wholesale grocery houses, 1 wholesale cigar and tobacco house; has churches of six denominations, two mill work shops, 4 large lumber yards, 200-barrel flour mill, gas plant under construction, 2 telephone systems, grist mill, cotton compress, farmers' union warehouse company, 3 cotton yards, 3 national and 1 state bank, 2 daily newspapers, the Democrat and the Journal, and 3 weekly newspapers, the Texan, the Journal and the Herold (German); two department stores whose combined stock will exceed a million dollars and a fair association which has existed for more than 32 years.

Taylor is a very healthy city, the mortality being extremely low. The altitude is about 600 feet, which is ideal, being neither too high nor too low. The seasons are regular and the climate mild. At the present time the business section is being paved with creosote pine blocks. Taylor has some 25 miles of macadam streets inside the city and about 200 miles of macadamized country roads. Taylor is a city of concrete sidewalks, there being practically 50 miles of concrete sidewalks in the residence section. Tel., W. U., Postal and Mackay. Exp., Am. and W. F. & Co. Frank S. Way, postmaster.

Tell Telephone Co.
Testerman F P, restr.
Thomas W O, physician.
Wiles J A & Son, cotton gin.

TEMPLE.

Population 15,000. Located on the G. C. & S. F. and M., K. & T. Rys., in Bell county, 8 miles east of Belton, the county seat, 35 south of Waco and 213 northwest of Houston. Temple is one of the principal cities of central Texas, and is in the center of the waxy land belt. Bell county is noted for the richness of its soil and large farm production. In 1912-13 it produced 82,250 bales of cotton. Other staple crops are corn, oats, dairy products, live stock and produce.

Temple has splendid shipping facilities, also 26 passenger trains daily. It is an important point on the Sante Fe system, being at the dividing point of its two great lines—one extending to all northern points and the other to all points west to the Pacific coast. The Sante Fe shops are located here and have a monthly pay roll of $80,000. Temple has churches of the leading denominations, graded and high schools, a business college and military academy; three thoroughly equipped hospitals, four banks, with over $200,000 deposits and combined capital and surplus of $900,000; one daily newspaper, the Telegram, and one weekly, the Mirror, are published. Among its manufactures are 2 cotton oil mills, several cotton gins, foundry and machine shop, candy factories, 2 planing mills, chewing gum and cigar factories, and several minor industries; as a wholesale center it has 7 grocery, fruit and produce firms. Temple has modern business buildings and beautiful residences, well ornamented with shade trees and shrubbery. A large opera house is in course of construction and many other buildings in process of erection certify to Temple's continued growth and prosperity.

As to its civic improvements Temple owns its water works and filtration plant, with an abundant supply of water 98% pure, taken from its Leon river; has electric light and sewer service all over

ADDRESS
R. L. Polk & Co.
DETROIT, MICH.

the city; has 2 miles of vitrified brick paving and 35 miles of cement sidewalk. Temple is connected with Belton, the county seat by an electric railway, which is operated in connection with the city street railway system. Another interurban is in contemplation between Waco, Temple and Austin. A steam railroad is in construction from a point about 100 miles northwest through Temple to the gulf coast, giving the city another direct outlet. Temple has room for other industries and invites the industrial public to investigate her resources and opportunities. Tel., Mackay and W. U. Exp., Am. and W., F. & Co. Telephone connections. Thomas J. Darling, postmaster.

THE STAR CLAY PRODUCTS CO. San Antonio, Texas

Here's what one user says about our STAR Firebrick:

"We put in your brick in our furnaces in 1910 and have done nothing to them since then. They are good for several seasons yet. You can rest assured that whenever we are in need of any firebrick, we will be sure to buy yours, as we consider them worth two or three times any other firebrick made."

TEXAS CITY.

Population estimated 5,500. Served by the Texas City Terminal Company railroad, which connects at Texas City Junction with the S. P.; I. & G. N.; M. K. & T.; G. H. & H.; G., C. & S. F.; T. B. V., and G. H. E. Co. (interurban). Located on Galveston Bay in Galveston county, eight miles by water and sixteen miles by rail northwest of Galveston, the county seat.

Texas City is primarily a port. It began business over its small terminals in 1904, handling 8,712 tons of freight, valued at $998,428. During the government fiscal year ending June 30, 1913, 461,239 tons of freight, valued at $62,735,253, were handled in the foreign and domestic trade. The total of exports and imports in the foreign trade was 247,823 tons, valued at $43,966,062; while the total of exports and imports in the domestic, or coastwise, trade was 213,415 tons, valued at $18,769,191. Foreign exports amounted to 243,813 tons, valued at $43,145,967, and consisted principally of cotton, lumber, logs, oils, manufactures of iron and steel, packing house products, grain and flour, cooperage, cotton seed and its by-products. Exports of cotton, the principal commodity handled, amounted to 642,647 bales, valued at $40,981,573. Grain came next, with exports of 1,049,391 bushels, valued at $946,082. Foreign imports were 4,010 tons, valued at $820,094. The leading commodities brought in were coffee, Mexican hats, rice, sugar, sisal and glycerine. The coastwise business covered a wide range of commodities principal among which were copper wire, steel rails, structural iron and steel, wire and nails, hardware, tools, paints and oils, groceries, machinery, furniture, dry goods and notions, coal, cotton, lubricating oil and lumber. Imports of coal from the Atlantic seaboard amounted to 80,371 tons, the movement of steel rails, also inbound, was 23,144 tons, while wire and nails were brought in to the amount of 40,460 tons. The outbound lumber movement was 14,470 tons.

During the past four years the Texas City Transportation Company has developed what is conceded to be the finest system of ocean terminals, from the standpoint of construction and arrangement, south of New York. The two piers have a combined berthing space of 5,700 linear feet, giving room for fourteen steamers at one time. The pier and land warehouses are of fireproof construction and have a combined floor space of 613,000 square feet. Some of these warehouses are equipped with overhead cranes which make possible the piling of freight in tiers to a height of 22 feet. In the handling of iron and steel products an electrified magnet attached to the crane is effectively used. On the south side of Pier B, the large pier, are located two traveling bridge cranes for the handling of coal, steel rails, structural steel, heavy timbers and cotton. In the handling of coal from 700 to 800 tons are transferred from ship to cars or bins during a 10-hour shift. Electrified magnets are frequently used on these cranes in unloading steel rails and structural steel from vessel.

Texas City is served by a number of steamship lines. The principal lines are, Wolvin Line to Mexico; Texas City Steamship Company, to New York; Bull Line, to Baltimore; Gulf Transportation Line, to Liverpool; Harrison Line, to Liverpool; Leyland Line, to Liverpool; Elder-Dempster Line, to Bremen and Havre. New lines are projected to Manchester, Hamburg and Mediterranean ports.

Texas City is a recognized distributing point for products manufactured in the East. Among the large distributors are, American Steel and Wire Association of Texas; Crane & Company, dealers in plumbers' supplies and fittings; A. M. Lockett & Company, machinery; Davis Coal and Coke Company; Joseph Carroll, coal.

Industrially Texas City is making rapid strides. Late in 1913 the Southwestern Steel Corporation, capitalized at $30,000,000, announced its intention of establishing coking plant, smelter and steel mills at Texas City, starting with an investment of $2,000,000 with the intention of ultimately building a $10,000,000 plant. The corporation plans to utilize East Texas iron ore, Texas limestone and Alabama coal in its furnaces. In the mills it is planned to manufacture steel rails, barbed wire, nails, concrete reinforcement and cotton ties. The coming of this industry is expected to center the steel industry of the Southwest in Texas City.

The $1,500,000 refinery of the Pierce Fordyce Oil Association is the largest single industry now operating in Texas City. This plant manufactures lubrication oil, paraffin wax, gasoline and other by-products of petroleum.

Other industries include a large cotton compress, factory for the building of freight-handling machinery, ice plant, concrete block factory, bakery, laundries, bottling works, etc.

The United States government, recognizing the importance of Texas City as a port, is now expending an appropriation of $1,400,000 in the construction of a dike to protect the ship channel from cross currents and in widening the channel to 300 feet and deepening to 30 feet throughout. The channel now has a ruling depth of 27 feet and a width of from 100 to 150 feet. The new depth will place the point on a parity with most American ports and will admit the largest freight vessels in the gulf trade.

When, in February, 1913, the United States decided to send troops to the Texas coast for possible armed intervention in Mexico, Texas City was selected for the camp of 8,000 soldiers and the headquarters.

Texas City has an extensive water works and sewerage system, electric lighting and power facilities, and an electric street railway system operating over three miles of track. All public utilities are privately owned. The banking facilities consist of two national and one state bank with a combined capital of $150,000. A daily newspaper, the Times, is published. The school facilities consist of one high school and two graded schools. All leading church organizations are represented, as well as secret societies. A commercial body, known as the Board of Trade, is maintained. Tel., W. U. Exp., Am. George E. Whitney, postmaster.

TYLER.

Population 13,000. The county seat of Smith county, is located on the St. L. S. W. and I. & G. N. Rys., 128 miles southwest of Texarkana, 100 southeast of Dallas, and 245 northeast of Austin. It is an important railway center of East Texas, and is also the center of the great fruit and truck belt. It has the largest freight tonnage of any city its size in Texas. The general offices and machine shops of the St. L. S. W. Ry., are located here and give employment to more than 1,000 men. It has excellent public and private schools, handsome churches and homes. There are twelve wholesale and jobbing houses here, four banking institutions, capital stock of which is $500,000, and the deposits are in excess of $2,000,000; a $150,000 United States court house and postoffice, a Carnegie public library, a $160,000 court house, a modern city hall, 21 churches, one of which cost $70,000; water works, a sewer system, gas, electric lights, two telephone systems, nine public school buildings, one daily and two weekly newspapers, a new Union Station, a large ice factory, two canning factories, a large compress and two large gins, a cotton seed oil mill, a large fruit package factory, an iron foundry and machine shop, an overall and shirt factory, a mattress factory, a brick plant, two bottling works, three lumber yards, a cigar factory, a creamery, a street railway, etc. Unimproved land in Smith county ranges in price from $10 to $50 an acre; improved farms from $15 to $100 an acre. Strawberries, peaches, garden truck, produce and cotton are the principal products. Exp., W. F. & Co. Tel., W. U. Wm. J Burns, acting postmaster.

VICTORIA.

Population 7 000. Appropriately named "The City of Roses," is an enterprising and thriving city located on the Guadalupe river and the G. H. & S. A. and St. L. & S. F. Rys., in Victoria county of which it is the county seat, 115 miles southeast of San Antonio and 127 southwest of Houston. It is the market place, shipping and trading center for one of the most productive sections of the state. It is an ideal location for manufacturing industries, as proved by the growth of those already established here. Has a safe factory, large cotton oil mill, ice factory, electric light plant, cotton compress, several large gins, planing mills, sugar mill, syrup factory canning factory, broom factory, 2 cigar factories, 3 bottling works, laundry, creameries, water works, 2 wholesale groceries, several other jobbing houses, special and general stores in all lines, 3 banks, a large denominational school, private schools, an unsurpassed public school system, churches of the leading denominations, literary and social clubs, 2 parks, splendid hotels and the finest homes to be found in South Texas, making it attractive for the homeseeker, the investor and the working man. The secretary of the chamber of commerce, Mr. J. H. Peters, will always gladly furnish information and render any assistance to visitors to Victoria or anyone writing him for further information. A daily newspaper, the Advocate, and 4 weeklies, the Advocate, the Fact, the Deutsche Zeitung (German), and the Guard (colored) are published. The principal shipments are corn, cotton, manufactured products of the different factories and merchandise to the surrounding points for which it is the distributing center. Tel., W. U., Exp., W. F. & Co. Local and long distance telephones. E. R. Fleming, postmaster.

around Waco is a great agricultural country, the entire Brazos Valley being noted for the richness of its soil, said to be the most fertile in the world. Cotton is the chief product, 1,891,409 bales being raised annually, according to federal statistics, the value of this crop being $80,550,200.

Situated in the heart of Texas with practically the entire State to draw from, Waco has become a center for wholesale dealers of all kinds, and is rapidly becoming known as the insurance center of the State.

Occupying as it does the position of the only city in Central Texas, it has been sought out by the railroads as a distributing point. The great trunk lines from the north all pass through Waco on their way south. Those from the east and west also meet at Waco. Among these is the great Missouri, Kansas and Texas system; the International and Great Northern, the Houston and Texas Central, the St. Louis and Southwestern, the Gulf, Colorado and Santa Fe, the San Antonio and Aransas Pass and the Texas Central; also an interurban Electric line running from

WACO.

Population 43,000. County seat of McLennan county. The geographical center of the State of Texas as well as the center of population. Within a radius of 100 miles of Waco the greater part of the population of the State of Texas resides, which is an important factor in freight rates, as more people can be reached at less transportation cost from Waco than from any other jobbing point in the State. The Territory

Waco to Dallas, a distance of 100 miles.

Deposits in Waco banks total $8,000,000, and some of the strongest financial concerns in the southwest are located here. Jobbing houses do an annual business amounting to $45,000,000. During 1913 Waco was only out classed by two Texas cities—Dallas and Houston—in building permits issued, the total for the year in the city of Waco amounting to $3,305,923, which from a per capita standpoint is the best showing from any city in the Southwest.

Waco is the home of the great Texas Cotton Palace, a big Fall Exposition showing the resources of the State and the manufacture of raw material into the finished product. People to number of 500,000 visit this show annually.

Waco is famous for its beautiful public parks and playgrounds. In every section of the city will be found ward parks maintained by the city for the convenience and comfort of the resident and visitor. Cameron Park, located one mile north of the city, is believed to be the most beautiful and natural park in the State. It comprises 130 acres along the banks of the Brazos river that have been

cut up into beautiful driveways that encircle the hills of this, the foremost of Waco's "beauty dimples." Dozens of springs find outlet through the rocks and furnish an unlimited supply of the purest sparkling water.

Waco is indeed a city of churches and schools, every denomination is represented by handsome edifices and able pastors. One of the finest denominational universities in the entire Southland is located in Waco, known as the Baylor University. Baylor and Waco, Waco and Baylor, are two names that have stood side by side for over a quarter of a century. Not only of Baylor is this true, but it is true of the other educational institutions located here, such as St. Basil's College (a Catholic school for boys); the Academy of the Sacred Heart (a Catholic schools for girls); Hill's Practical Business College and Toby's Practical Business, as well as a score of smaller ones. Waco has two colleges for negro youths of Texas. One, the Paul Quinn College, is supported by the Methodist denomination; the other, Central Texas College, derives its support from the Baptists. In addition to the churches and schools, Waco has a beautiful public library, the gift of Andrew Carnegie, and a magnificent Y. M. C. A. building and association, officered by some of the leading citizens and including in its membership several hundred Waco youths. A paid secretary is employed by the association and everything possible is done for the physical and moral development of its members. The federal government has appropriated and is spending millions of dollars to make the Brazos river navigable from Waco to the gulf. Locks and dams are being constructed under the federal supervision, and when completed will give a lake of water eight feet deep in the river channel for a mile above Waco.

The manufacturers are extensive and numerous and include cotton seed oil, sash and doors, bank and store fixtures, mattresses, clothing, welding machinery, structural iron, boilers, brick, cement, stone, wood and metal preserver, iceless refrigerators, gas lighting plants.

Ample hotel accommodations are afforded by first class hotels, among which are The State House, Savoy and the New Waco.

Waco is kept in the forefront of municipal activities under the leadership of two strong commercial organizations—The Young Men's Business League and the Chamber of Commerce—both with large memberships, the former said to be the largest commercial organization in the South—over 1,200 members. The city commission has voted the use of Waco's streets and alleys to Kansas City capitalists, who will at an early date construct a pipe line from Waco to Mexia gas fields, 45 miles distant, which will supply the city with natural gas for domestic and factory use at a most reasonable cost. Exp. Am. Empire and W. F. & Co. Tel., Mackay, Postal and W. U. Wm. H. Hoffman, postmaster.

The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the City Directory Advertising Man and let him explain this to you in detail.

MAIN BUILDING, TEXAS COTTON PALACE, WACO, TEXAS

Our Preserver Was Used on the Following Buildings:

Cotton Palace Buildings, Waco, Texas.
Majestic Hotel, Marlin, Texas.
Bay Side Inn, Rockport, Texas.
King Ranch Buildings, Silos and Troughs, Kingsville, Texas.
M. E. Orphan Home, Waco, Texas.
Baylor School, Belton, Texas.
Several of the State Buildings in Texas.

Residences of Col. Chas. Hamilton; Geo. S. McGhee, Waco, Texas; Leroy Roberts, Pettus, Texas; I. L. Sturdevant, Nacogdoches, Texas; S. Sanger Concrete Basement, Waco, Texas; M. E. Von Every Bee Hive, Berclair, Texas.

Various Court Houses, Schools and Bridges throughout the state.

To be used on all kinds of Metal, Iron, Tin, Boilers, Smokestacks, and all kinds of Machinery and Farm Tools, Concrete Basements and Silos.

Specially recommended for Shingled Roofs, Galvanized Iron and Composition Roofs of all kinds; also Bridge Timbers, Crossties, Poles and Posts.

The Enamel that lasts forever; water and rust proof. Stops leaks in all kinds of roofing. It preserves all kinds of exposed material. Will stand salt atmosphere, preventing rust. GUARANTEED NOT TO CRACK OR FLAKE. Write for booklet "An Everlasting Roof."

WEATHERFORD.

Population 6,000. The judicial seat of Parker county is located on the T. & P., the G. C. & S. F., the G., T. & W. and the W., M. W. & N. W. Rys., 31 miles west of Fort Worth. It is the trading center of all of Parker county and parts of Jack, Wise, Hood and Palo Pinto counties. It stands at an altitude of 1,100 feet at its lowest point and this makes it one of the most pleasant and healthful towns in the southwest in which to live. Has 12 churches, a splendid school system with modern high school and 4 ward buildings, a business college, modern electric light and gas plant, water works, an efficient fire department, 2 public parks, a $12,000 city hall, 50 miles of graveled streets, fine sewerage system, a $70,000 federal building, 4 banks, a live Chamber of Commerce, lodges of the leading fraternal orders, a sanitarium, a daily and 2 weekly newspapers, local and long distance telephone facilities, and a number of wholesale houses. Among the leading industries are 4 cotton gins, a cotton oil mill, cotton compress, cotton tie buckle factory, creamery, pottery, machine shops, candy factory, broom factory, flouring mill, furniture factory, ice factory, ice cream factories, floor sweeper factory, peanut factory and 2 grain elevators and the railroad shops of the W., M. W. & N. W. Ry. Is the location of Fairmount Seminary for Girls and of the K. of P. Widows and Orphans' Home. Tel., W. U. Exp., W., F. & Co. James M. Richards, postmaster.

WHARTON.

Population 3,100. The county seat of Wharton county on the G., H. & S. A., G., C. & S. F. Rys., and on the Colorado river, 62 miles southwest of Houston. It is in the center of Caney valley, which is about 10 miles wide and 50 miles long. Here the soil is exceptionally fertile and well adapted to the growing of alfalfa, potatoes, corn, sugar cane, etc. This section is particularly well adapted to the swine industry. The altitude is 5 feet higher than the adjoining prairie. Land can be secured on reasonable terms. The city has a cotton oil mill, 2 gins, a syrup and sugar factory, feed mill, grist mills, mattress factory, laundry, ice plant, electric lights, water works, good hotels, a hospital, the usual mercantile establishments, 2 banks, a weekly newspaper, the Spectator; high school, Methodist, Baptist, Episcopal, Presbyterian, Christian and German Lutheran churches. The principal shipments are cotton, cotton seed products, corn, potatoes, hay, pecans, sugar cane products, produce and live stock. Tel., W. U. Exp., W. F. & Co. Telephone connections. C. M. Hughes, postmaster.

Abovitz Leon, grocer.

McCAIN SAM H, Postmaster.

WICHITA FALLS.

Population 15,000. The judicial seat of Wichita county, is located on the main line of the Ft. W. & D. C. Ry., 114 miles northwest of Fort Worth and 158 southwest of Oklahoma City. The W. V. Ry., the W. F. & N. W. Ry., the W. F. & S. Ry, the W. F. & O. Ry. and the M., K. & T. System supply the city with exceptional railroad facilities. Freight rates from defined points in the east and north apply here on an equal footing as with Dallas and Forth Worth, hence its jobbing and factory distribution value.

This city has what is believed to be the largest natural gas field in the United States, but 15 miles distant. This gas is furnished manufacturers at from 4 to 8 cents per thousand cubic feet, based on the amount of consumption, and an even lower rate can be secured on large consumption and long contract. There are numerous wells in this field producing from 30 to 40 million cubic feet daily with a rock pressure of from 500 to 700 pounds to the square inch. But 16 miles away and in the western portion of Wichita county, the Electra Oil Field is located, one of the largest in the whole southwest. Fifty miles south with direct railroad connection, is a vast deposit of coal, which is being extensively mined and furnished for manufacturing purposes at an extremely low rate per ton.

Wichita Falls has churches representing the leading religious denominations and its public schools have in every way kept pace with the rapid growth of the town, its system ranking with the best in the state. It has every modern municipal and public service convenience to be found in the largest cities of the country. Paved streets, sewerage, water works system, police and fire departments, electric street car service, local and long distance telephone facilities, merchandising facilities to satisfy the most exacting and amusement facilities of the first class. With a $100,000 pavilion and amusement resort on the shores of Lake Wichita, five miles south of the city, where boating, fishing, bathing, duck shooting, dancing and outings may be had, together with a $50,000 theatre, where the best attractions are booked, the citizenship find plentiful recreation features. Of Lake Wichita, Wichita Falls is deservedly proud, in that it is the largest artificial lake in the southwest, covering about 3,000 acres and furnishing an inexhaustible supply of water for manufacturing, irrigation and domestic purposes.

Among the leading industries are window glass, glass bottle, pottery, fruit jar, furniture, broom, ice, corrugated culvert and brick and tile plants, the Northwestern railroad shops, the largest mill and elevator in Texas, cotton oil mill, cotton compresses, sash, door and blind factory, marble works, etc. This city has the distinction of being one of the first cities in the state to manufacture automobiles. The Wichita Falls Motor Co. was the pioneer in the business and now has a plant equipped with the most up-to-date machinery and is putting out a motor truck that is being sold in every part of Texas, Oklahoma and western states. There are 4 banks, a daily and 2 weekly newspapers and one of the best business colleges in the state.

Of all the oil territory within a radius of 30 miles of Wichita Falls, the main center and headquarters is in this city. The largest in the business maintain large forces of field men, office men and managers here. Numerous independent operators, contractors and leasers make their homes and that of their families in the city. In addition to this, the largest oil well machinery supply houses in the country all have branch offices and warehouses here. Tel., W. U. Exp., Adams and Am.

YEWPON.

A country postoffice in Bastrop county, 7 miles from Bastrop, the county seat, banking and shipping point. W. B. Dawson, postmaster.

DAWSON W B, Grocer.

YOAKUM.

Population 7,500. Yoakum is situated on the S. A. & A. P. Ry. in two counties, DeWitt and Lavaca. Surrounding Yoakum is an agricultural territory without a superior in the broad domain of Texas, and the farmers in this great agricultural belt are thrifty and have money. Their farm crops consist for the most part of cotton, corn, sorghum, milo maize and kaffir corn, but the basis of their farming operations is the dairy industry.

Situated in Yoakum is the largest turkey slaughtering plant in Texas, and Yoakum is considered the turkey market of the South. A cotton oil mill, a large compress, and a mattress factory are here. The San Antonio & Aransas Pass Railway Company maintains its shops here and over 500 men are employed in these shops. The pay roll for the month is in the neighborhood of $75,000, nearly $1,000,000 a year.

In a radius of 50 miles of Yoakum is over 200,000 population, and because of the central location of the city and its excellent steam railway facilities its position as the trading and manufacturing center of the Southwest is impregnable.

In 1910 the bank resources of Yoakum amounted to $750,000.00. According to the bank report of January, 1913, they were $1,456,750.

In 1910 the postal receipts at Yoakum were $10,000; in 1912 the postal receipts were $16,500.

These facts not only show the wonderful growth of Yoakum, but forcibly foretell the possibilities of the future.

Yoakum is the home of the South Texas Annual Fair.

Yoakum has two daily and weekly newspapers—The Times and The Herald. Tel., W. U. Exp., W. F. & Co. Thomas P. Woodward, postmaster.

We teach touch Typewriting on the machine that made those persons famous whose portraits are shown in our booklet.
We teach Salesmanship.
We teach the most Rapid, Standard Office and Court-Reporting Shorthand, by that Thorough, Modern Sentence Method in which Word-Signs are mastered by use, not by abstract memorization.
Our Bookkeeping is Real Business, from simplest debit and credit entry, on through Retailing, Wholesaling, Manufacturing, National Banking, etc., all of which is taught by the live Counting-House Method, or learning to do by DOING.

Every working pupil becomes an expert Penman.
Habla Usted Espanol? Sprechen Sie Deutsch? America's most valuable foreign languages taught by the renowned Conversational Mastery Method, free to every regular pupil who wishes to learn them. No other language school like ours nearer than St. Louis. Thorough training in English branches.
Every competent pupil of this school has found employment. Unfilled positions have stood ready for more than we could supply.
Judge us by our results rather than by our statements. We cheerfully refer to Yoakum business, professional men and bankers.

Buildings of Acme Brick

Acme Brick is the logical building material for private and public buildings. The minute a brick building is ready for occupancy, it begins to earn dividends through higher rentals, low cost of up-keep, low insurance rate and permanence.

ACME BRICK

is made in Texas to suit Texas climate. Dust won't stain it because it is practically impervious to moisture. Every brick manufactured by the Acme Pressed Brick Company far exceeds the tests set by the American Society of Testing Materials for the highest type of vitrified brick.

And Acme Brick is burned in many varieties of dark rich tones that grow softer and richer with age.

Our deliveries are a special feature of our service—your building is never held up for want of material—our shipments are ALWAYS ON TIME.

Make Your Fields Yield Larger Crops

Every dollar paid out for fertilizer will bring a return of from $4.00 to $6.00 when properly used.

Make sure that your fertilizers contain a sufficient amount of

POTASH

Actual farm experiments have shown that the fertilizers containing a liberal amount of potash give the best results.

Examine the fertilizer formulas and insist on a fertilizer with a high percentage of POTASH.

POTASH PAYS" **"POTASH PAYS"**

R. L. POLK & CO., **RAND McNALLY BLDG.** **Chicago, Ill.**

Miller & Orem Type-setting Co.

"Texas Printers' Supply House"

Inks, Type, Supplies, Printing Machinery

Largest Linotype and Monotype Composition House in the South

Houston, Texas

THE STAR CLAY PRODUCTS CO. **San Antonio, Texas**

Here's what one user says about our STAR Firebrick:

"We put in your brick in our furnaces in 1910 and have done nothing to them since then. They are good for several seasons yet. You can rest assured that whenever we are in need of any firebrick, we will be sure to buy yours, as we consider them worth two or three times any other firebrick made."

FT. WORTH COTTON OIL CO. **Per F. A. Blain, Gen. Mgr.**

HOTEL DE SOTO

THE ONLY ABSOLUTELY FIRE FROOF HOTEL IN

New Orleans

THE SEAT OF MADRI-GRAS

MILLION DOLLAR, HIGH-CLASS, UP-TO-THE-MINUTE HOTEL

The coolest hotel in the city.

225 rooms, all outside, facing on four streets.

Screened throughout.

Most centrally located, just outside the noisy business center, yet within a few steps of the principal THEATRES, SHOPS, and LIBRARIES.

A perfectly appointed MODERN HOTEL. Celebrated for its many individual features.

There are five reasons why you select one hotel as compared with another.

CONVENIENCE,
COMFORT,
SERVICE,
ECONOMY and
EQUIPMENT

When combined, these all point to the

HOTEL DESOTO.

CONCEDED BY THOUSANDS OF EXPERIENCED TRAVELERS TO BE THE MOST COMFORTABLE HOSTELRY, AND HAVING THE DAINTIEST DINING ROOM IN THE ENTIRE SOUTH.

NOTED FOR THE EXCELLENCE OF ITS CUISINE FRANCAISE.

MEETS THE DESIRES OF ALL WISHING THE BEST SERVICE AT A MODERATE PRICE

European Plan, $1.00 and upward
(With Private Bath, $2.00 and Upward)

VICTOR LEBEAU, President and Managing Director.

"The City Care Forgot"

NEW ORLEANS, Natural Gateway to the Panama Canal

NO WINTER RESORT OFFERS SO WIDE A RANGE OF PLEASURABLE OCCUPATION

Golf, Polo, Base Ball, Yachting, Fishing, Hunting, Good Theatres, Grand Opera and Mardi-Gras

The St. Charles

"The Finest All-Year Hotel in the South"

Perfectly located in the heart of the business and amusement centres.

Railroad Ticket Offices of All Lines in Hotel Building

Modern, European Plan, Fire-Proof

ACCOMMODATING OVER 1,000 GUESTS

ALFRED S. AMER & CO., Ltd. Proprietors

NEW ORLEANS, LA.

THE PLACE THAT HELPED TO MAKE NEW ORLEANS FAMOUS FOR ITS EXCELLENT CUISINE

THE BOURBON RESTAURANT
124 Bourbon Street
The ideal place for dinner parties.
The service and cuisine here is not excelled anywhere.

THE ROYAL CAFE
121 Royal Street
The Famous Bohemian Restaurant, where the traveler meets his friends.
Make it your headquarters.

Hotel fronts on three streets; half a block from Canal St.
In the very heart of the Commercial, Shopping and Theater Districts

COSMOPOLITAN HOTEL A. G. Bourdet, Manager

124 BOURBON STREET

THE PLACE OUR PATRONS CALL HOME

121 ROYAL STREET

The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the City Directory Advertising Man and let him explain this to you in detail.

R. L. Polk & Co.
Directory Publishers

Where does your Advertising go??

When your advertising matter goes out hit or miss to any old sort of a list of names, there's bound to be tremendous waste.

Polk's lists are different—because they are based on original data—the data that goes into Polk's 400 City, County, State and National Directories. Directory publishing is our principal business.

98% delivery is guaranteed on our lists—can you ask for any better proof of efficiency?

Form letters—well executed—command attention. We do addressing, multi-typewriting, filling in, folding, enclosing and mailing.

The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the City Directory Advertising Man and let him explain this to you in detail.

SLAUGHTER BLDG

DALLAS TEXAS

THE WAGNER SAND CO.

SAN ANTONIO, TEXAS

Miners of pure Silica Sand. We get it out of a dry river bed—cleaned by waters. Absolutely clean—needs no washing or screening as it is free from dirt or gravel. Price no higher than common sand.

SLAUGHTER BLDG.

DALLAS TEXAS

THE WAGNER SAND CO. SAN ANTONIO, TEXAS

Miners of pure Silica Sand. We get it out of a dry river bed—cleaned by waters. Absolutely clean—needs no washing or screening as it is free from dirt or gravel. Price no higher than common sand.

PHYSICIANS—Cont'd.

THE STAR CLAY PRODUCTS CO. **San Antonio, Texas**

Here's what one user says about our STAR Firebrick:

"We put in your brick in our furnaces in 1910 and have done nothing to them since then. They are good for several seasons yet. You can rest assured that whenever we are in need of any firebrick, we will be sure to buy yours, as we consider them worth two or three times any other firebrick made."

FT. WORTH COTTON OIL CO. **Per F. A. Blain, Gen. Mgr.**

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

REIN on Your Printing is like Sterling on Silver

WE may not have the largest plant—as floor space is measured, but in modern up-to-date equipment, in scientific arrangement, in efficiency of organization, in high-class work and prompt service, we stand absolutely at the head of our profession in the Southwest, and in these essentials are second to none in the United States.

WE PRINT School Books, Code Books, Technical Books, Histories, Directories, Memorial Volumes, Magazines, Novels, Newspapers, Etc.

WE DESIGN AND WRITE Advertising Booklets, Pamphlets, Catalogues, Folders, Etc.

WE PRINT Letters Heads, Envelopes, Office Forms, Loose Leaf Specialties, Blank Books, Etc.

WE DO Steel and Copper Plate Engraving, Embossing, Color Printing and Lithographing.
